### Why does it say it is locating my item?

We work with retailers to identify the exact item you want to save. Sometimes we have to check-in with them if we can't automatically locate it, but we'll add it within 24 hrs.

### What do I do if I get an exclusive offer texted back to me?

Use that discount my friend! Just show the sale associate the code at the register or enter the promo code when you purchase online.

### Where does Hafta Have store my list?

Not on your phone - that's the best part! You have your own personal URL or web address, just like you do for Facebook, LinkedIn, etc.

### How many texts will I get a month?

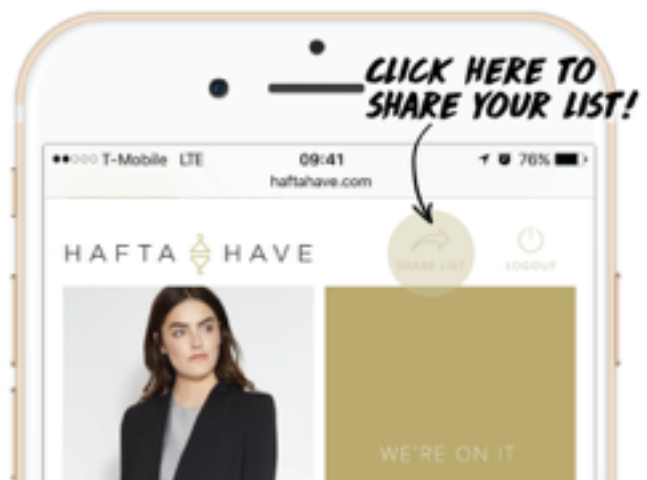

No more than 10. If you're close to going over because you added a lot of items to your list, or a ton of your wants are on sale - just text us your email address and we'll email you the alerts. Or, just give us the ok to keep texting by responding 'OK'.

### Why do you need my email?

Sometimes a retailer might ask for it to send you an exclusive offer, or we will ask for it once we've hit the text limit. We'd hate for you to miss out on something you have to have!

### How do I share my list with someone? (for my birthday, for example \*hint hint\*).

Easy, just hit the share button and you can share your list.

**How do I stop getting messages from Hafta Have?**

Just respond with 'STOP'.

**What retailers does Hafta Have work with?**

Honestly, any of them. We want to work with the stores that you shop - so give it a try.

**Where do the exclusive offers come from?**

Directly from the retailers; we work with them to get you exclusive offers on specific products. So, text away.

**Is there an app?**

A new app is coming!

**Who invented Hafta Have?**

Hafta Have was founded by a woman who likes to go shopping in store and realized there was no good way to save anything she found IRL. We're like "Pinterest in real life", but with sale alerts and offers!
